

EQSTRA : peace of mind in industrial, agricultural and materials handling sectors

EQSTRA Industrial Power (EIP) provides distribution, rental and value added services for industrial, agricultural and materials handling equipment in South Africa, and various African countries.

The three product lines distributed by EIP are world class brands that provide customers with peace of mind. Our sense of urgency and attention to detail ensures that we provide exceptional service and support.

Combine these essential elements with superior skills and expertise and rest assured that you, our customer can count on a lifetime partnership with us.

ABAC – World leader in production of air compressors

Since 1980, ABAC has secured a position as one of the worldwide market leaders in the production and distribution of air compressors, offering the right mix of flexibility and experience for the industrial, professional and DIY compressed air markets.

From state-of-the-art production facilities straight to your business via more than 300 distributors in more than 100 countries worldwide, ABAC provides you with plug & play air solutions with a quality label. All manufacturing is certified and

benefits from the latest trends in flow process techniques by using a high degree of automation and from continuous investment in innovation as well as in production process improvements

Hako - cleaning floors and maintaining grounds for nearly six decades

The Hako brand is synonymous with quality products for floor cleaning and grounds maintenance for almost 60 years. Today, it is one of the leading manufacturers of superior technology for indoor and city cleaning as well as site maintenance on a global scale. Hako, a leader in industrial cleaning equipment, offers a wide range of products for use in a host of applications such as warehousing, municipalities and manufac-

turing. Although Hako has not been represented in South Africa for some time, we are proud to say that it is now an important part of Eqstra Industrial Power, and we have invested substantial financial backing, commitment and promise of service delivery behind this powerful brand. Hako have production facilities throughout the world and are continuously investing in research & development in order to bring the

latest technology to our customers. Additionally, Hako products are environmentally friendly and can achieve savings of up to 30% in water usage. All our products are certified according to DIN and ISO standards. Hako was one of the first companies in its field to introduce a quality management system certified to DIN EN ISO 9001.

EnerSys – manufacturing batteries for more than a century

EnerSys and its predecessor companies have been manufacturers of industrial batteries for over 100 years. It is the largest industrial battery manufacturer in the world, operating manufacturing and assembly facilities globally for customers in over 100 countries. EnerSys is uniquely positioned to provide expertise in designing, building, installing and maintaining a comprehensive stored energy solution for industrial applications. Hawker power products, the world leader in industrial power batteries, have always delivered innovative and convenient batteries and

chargers for demanding service conditions. Our customised power systems can be designed for specific customer requirements. The Hawker branded battery range, matched chargers and systems provide trouble-free performance under the most demanding service conditions. Our range has an enviable position in technology leadership and with significant investment in research and development we intend to stay at the leading edge in product innovation. The strategically located manufacturing plants are efficient and responsive with a culture of continuous

improvement and added value. A dedicated team of development engineers are continuously working to build the best energy solutions with benefits, such as faster recharge, more machine availability, lower operating and investment costs and a reduced carbon footprint to our customers.
